Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Thursday 09 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with showers building through the day. Risk of thunderstorms.

Today:
A cloudy day for most. Scattered showers, occasionally heavy, throughout the morning. Turning heavier and more frequent in the afternoon, with downpours possible. Risk of thunderstorms throughout. Cooler than Wednesday but likely still warm and humid. Maximum temperature 23 deg C (73 deg F).

Tonight:
They day's storms should begin easing during the evening, mostly cleared by half-way through the night. However, scattered showers, locally heavy, remain possible throughout. Warm and muggy. Minimum temperature 13 deg C (55 deg F).

Friday:
Unsettled throughout the day, rather cloudy with outbreaks of rain. A small chance of sea fog. Chance of heavy showers, with risk of thunder, developing, especially further inland. Maximum temperature 23 deg C (73 deg F).

Outlook for Saturday to Monday:
Likely a cloudy start to Saturday clearing to a generally dry and bright weekend and Monday, though the odd light shower remains possible. Temperatures turning to nearer average.
